

PBC

PERFORMANCE
BLASTING & COATING

INDUSTRIAL/MARINE COATINGS & LININGS | SHOP & FIELD PAINTING | SCAFFOLD & INSULATION

PBC'S CHIEF CORE PRINCIPLE is that safety is a value rather than merely a compliance requirement. Safety drives every employee, process, and project. PBC's incident rate and EMR are consistently far below industry standards.

PBC SAFETY BELIEFS:

- All occupational injuries and illnesses can be prevented.
- Every employee is responsible for safety, from ownership to frontline employees.
- Safety requires training, involving, and empowering all employees to identify, eliminate, or control hazards.
- Accident prevention allows employees to return home safely.

PBC SAFETY PRACTICES:

- Establish, actively promote, and continuously improve the safety, health, and accident prevention program
- Provide a safe and healthful work environment for all employees
- Prevent injury and material loss
- Meet or exceed contractual requirements, Occupational Safety and Health Administration (OSHA) regulations, and Federal, State and Local Laws for safety and health

PBC'S NUMEROUS SAFETY AWARDS AND RECOGNITION VERIFIES OUR FIRM COMMITMENT TO SAFETY:

- ISTC Safety Achievement Awards
- GTBR Contractor Safety Awards
- Liberty Mutual Group
- Safety Council of Southwest Louisiana
- Highwire (ContractSecure)

Nothing shall take priority over **health and safety**. PBC's Ownership, Management, Supervision and Employees are committed to safety excellence and the goal of

ZERO ACCIDENTS.

PBC IS AFFILIATED AND COMPLIANT WITH ALL MAJOR SAFETY NETWORKS AND CONSORTIUMS.

HIGH QUALITY WORK - IN A TIMELY MANNER

- Upper management involvement on all stages of each project
- Experienced and knowledgeable supervision
- Over 750 years combined management and supervision experience
- AMPP certified inspectors
- Highly trained and skilled craftsmen
 - All coating material applications
 - Inspection tools
 - Certified / trained on specialty coatings

PBC can fulfill all of your industrial and marine coatings needs. Among the services we provide are the following:

INDUSTRIAL COATINGS

- Pipe Painting
- Structure Painting
- Unit Painting
- Tank Painting External and Internal Coatings
- Maintenance Painting
- Turnarounds / Shutdowns
- Expansion Projects
- Corrosion Under Insulation (CUI)
- Electrical Transformer Flow Coating
- Lead Paint Removal
- Fire Proofing (Intumescent and Cementitious)
- Thermal Spray Aluminum (TSA)
- Air to Soil Interface
- Underground Coating
- Fiberglass Linings
- Secondary Containment
- Forced Cure Coatings
- Tank Logos
- Refineries & Petrochemical Facilities
- Tank Farms / Terminals
- Pipeline Stations

Industrial coatings cont.

- Reactor Blasting
- Pressure Washing/Hydroblasting
- Abrasive Blasting
- Recycle Grit Blasting

MARINE COATINGS

- Cargo Linings
- Rig Painting
- Void Painting
- Sheet Pile coating
- Dock Coating Maintenance
- New Construction or Repairs
- Boats
- Barges
- Rigs
- Docks/Bulkheads

SHOP SERVICES

- 24/7 Operations
- Segregated Blast and Paint Areas
- Pick-up and delivery services
- Crane and Forklift services provided
- Heated Paint Booth
- Internal Pipe Painter
- AMPP Senior Certified Coatings Inspector Onsite
- Office/Meeting Space Onsite for Inspectors / Project Managers

COATINGS APPLIED

- Liquid Coatings
- Tank Linings
- Thermal Spray Aluminum (TSA)
- Fiberglass Reinforced Coating
- Coal Tar Epoxy
- Underground Coating
- Fire Proofing
- Chemical Resistant Lining Materials
- Flow Coating
- Insulating Coating

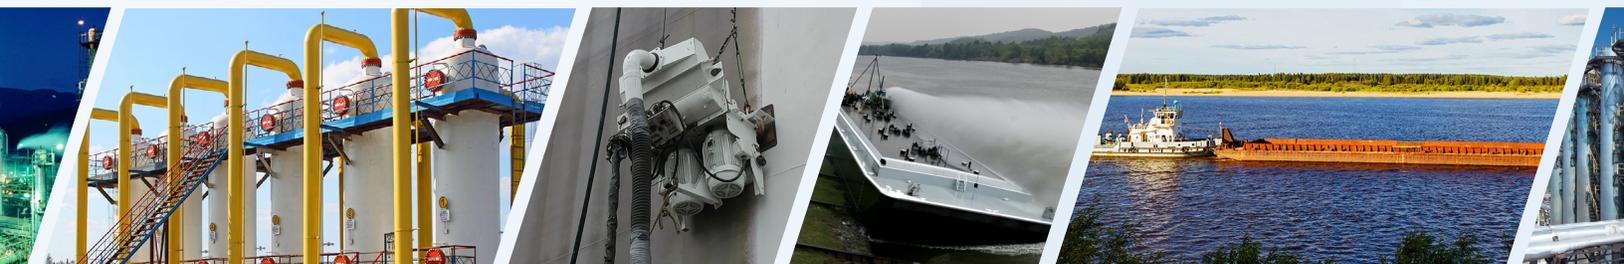

TEXAS BLASTYARD

Located on approximately 20 acres | Additional Laydown area as needed | 37,500 sq ft building is totally enclosed and environmentally friendly | 2 recycle grit blast booths and 5 spray booths | A separate 200' X 200' open-air blast and paint area can accommodate oversize items.

LOUISIANA BLASTYARD

Located on approximately 7 acres | 20,000 sq ft building for all blasting and painting operations.

SCAFFOLDING:

PBC provides complete estimating, design, engineering, erection & dismantle services to solve your work platform and access needs. PBC has set itself apart by hiring the most skilled and experienced craftsmen. Our team will assess, recommend, and implement the appropriate turn-key solution for all your access requirements.

SPECIALTY ACCESS

- Frame Scaffolding
- Systems Scaffolding
- Suspended Scaffolds
- Rolling Towers
- Debris Chutes
- Wrap Enclosures
- Fall Protection Systems

PROJECT SERVICES

- Construction Management
- Project Planning & Scheduling
- Design Support
- Commissioning

INSULATION

PBC is a full-service insulation contractor specializing in industrial insulation applications. We are highly qualified in all aspects of mechanical insulation, including piping systems, heating/cooling equipment including tanks, vessels, and chillers.

INSULATION SYSTEMS

- Thermal Insulation
- Acoustic Insulation
- Cryogenic Insulation
- Corrosion Under Insulation (CUI)
- Removable Covers
- Steam Tracing

PROJECT SERVICES

- Turnaround Management
- Planning & Scheduling
- Design Support
- Commissioning
